

Grand Island Area Clean Community System

2019 Litter Safety Guidelines

To ensure all participants have a safe and productive experience please abide by the following guidelines:

- Work as a group and face oncoming traffic at all times.
- Work only during daylight hours and good weather conditions.
- Vehicles associated with the litter pick-up should not be parked along the shoulders of the roadway unless no alternative parking is possible. Carpooling is a great way to reduce the number of parking spaces needed.
- Do not cross the roadway unnecessarily. Designated crossing locations should be predetermined prior to starting work.
- Wear proper safety clothing/gear such as:
 - Safety Vests
 - Gloves
 - Protective shoes
 - Hat
 - Long Sleeve Shirt
 - Long pants
 - Bug Spray
 - Sun Screen
- Erect the Litter Pick-up warning signs prior to starting work.
- Have a first aid kit available in case of minor injuries.
- Stay Alert. Keep all of your senses (including hearing) available to stay alert and aware of your surroundings.
- Avoid overfilling trash bags
- Do not pick up potentially hazardous material such as:
 - Heavy Objects
 - Car Batteries
 - Needles or Syringes
 - Animal Carcasses
 - Broken Glass or Porcelain
 - Other questionable objects
- Neatly stack the bagged litter at the predetermined locations for pickup by the City Street Division or other entity.
- Have adult supervision for anyone under 15. There must be one adult for every five children under age 15.
- To avoid injury do not attempt squeeze trash into full bags, fill bag with what easily goes in and then get a new bag.
- Do not go near any mowing operations and maintenance or construction activities.
- In case of an accident during a litter pick-up, Clean Community System does have liability insurance. If an accident occurs, immediately contact Executive Director Denise McGovern-Gallagher at (308) 379-5266.
